Welcome to the POSSt

• 1-3pm today! in BA 3200

How to Interview for Jobs in Computing

• Tuesday, 4:30-6:00 in BA 3200
• RSVP: uoft.me/alumni-panel-2015
Must be done individually.

There is starter code provided, but it is incomplete, so it will not compile.

We’ll cover a lot of topics needed for the assignment this week. Some of next week’s material will also be needed.

After today’s lecture, you can get started on the code specified by the Figure 3 UML diagram (everything except the Moveable interface and moveTo methods).
