Midterm

Solutions are posted.

Marks will be available also via MarkUs, and we will announce when they are there.

Results

- LO101 average: 25.3/37 = 68.3%
- LO201 average: 23.6/37 = 63.9%
- Others TBD

We may make some adjustments to even grades out.

If you think an error was made in grading, please complete a remark request form (on the Forms page of the website), staple it to your paper, and give both to me by a week today.

As noted on the front page, tests written in pencil are not eligible for remarking.
Project

Demos: If you haven’t signed up, do so right after class!

To be available shortly:
- Assignments of pairs into teams of 4
- New team repos
- Phase II handout, including a Team Expectation Agreement

ASAP afterwards:
- Log in to CATME to find your team info
- Email your team members and arrange to meet
- Log in to MarkUs to get the URL for your team repo
- Complete the Team Expectation Agreement and check it in to your group repo
- Get to work!
