Your first csc343 lecture?

- http://www.teach.cs.toronto.edu/~csc343h/winter
- Everything is on the website (not Blackboard).
- Last week’s lecture materials are on the website.
- Read the course syllabus, also on the website.
- All three hours a week of class are here, with me.

- The first weekly lecture prep was due last night.
- If you couldn’t do it due to late enrollment:
  - Fill out our online form (see syllabus - special considerations section).
  - We will prorate your prep grades.
If you are missing prerequisites

- Prerequisites are enforced for everyone except: Engineering students enrolled in an engineering “section”: L2001 or L2501.

- You may email Prof Miller to request a waiver. Include:
  - your complete academic history.
  - why you think you are well-prepared to take the course.
To-do list

- Anyone new to the CS Teaching Labs:
  - Your account name is your UTORid.
  - Check your email account declared on Acorn for a message with your password.
  - Try logging in.
- Read the course syllabus.
- Bookmark the course website: [www.teach.cs.toronto.edu/~csc343h/winter](http://www.teach.cs.toronto.edu/~csc343h/winter)
- Do the class prep due Monday night. (It will be posted on Wed.)
