CSC104 tutorial exercises #6

This tutorial is meant to give you some practice with strings and conditionals.

My office hour: Wednesdays 5:10–6, in SF1101 (our classroom).

Your tutorial: Wednesdays 6:10–7:00. Tutorial sections are as follows:

Surname	Tutorial section	Room	TA
A–C	section 1	BA3175	Omar
D–J	section 2	BA3185	Nahla
K–L	section 3	BA3195	Dhinakaran
M–T	section 4	BA2220	Nick
U–Z	section 5	BA2220	Yashuai

DCS Help Centre: Monday–Thursday, 4–6 pm in BA2230, see Help Centre page. Khaled, a TA from our course, is in the Centre Monday, Tuesday, and Thursday.

1. You will work on some exercises from Chapter 9 of Picturing Programs and Chapter 15 of Picturing Programs. If you encounter an unfamiliar command (or one that used to be familiar, but no longer is), try

   (a) Type the command in DrRacket, hover your cursor on it, and then right-click, in order to see documentation, or

   (b) Look for the command in Picturing Programs

   (c) Ask another student, or a TA, how it works

2. Work on exercises 9.2.2–9.2.6 in Chapter 9 of Picturing Programs. It helps to read some of the preceding section 9.1 first.

3. Work on exercises 15.1.1–15.1.5 in Chapter 15 of Picturing Programs. Again, it helps to read some of the material before the exercises first.
