1. You will work on some exercises from [Chapter 20 of Picturing Programs](#). If you encounter an unfamiliar command (or one that used to be familiar, but no longer is), try
 - (a) Type the command in DrRacket, hover your cursor on it, and then right-click, in order to see documentation, or
 - (b) Look for the command in [Picturing Programs](#)
 - (c) Ask another student, or a TA, how it works
2. Work on exercises 20.1.1, 20.4.1, 20.4.2, 20.5.2 and 20.5.3. Again, it helps to read some of the material before the exercises first.
